POOJA KALOJI

QA ENGINEER | QUALITY ASSURANCE & TEST AUTOMATION

Pune, Maharashtra | 9370527056 | poojakaloji66321@gmail.com

PROFESSIONAL SUMMARY

QA Engineer with **3 years of combined experience**, including a 6-month internship, testing web applications and conversational AI workflows. Skilled in **test design and execution, defect investigation, REST API validation, SQL data checks, and UI automation** using **Python, Pytest, Playwright, Selenium, and Robot Framework**. Experienced in Agile teams and investigating issues with application logs and monitoring tools.

CORE SKILLS

Testing: Requirement analysis, test planning, test scenarios and cases, functional, regression, smoke, sanity, exploratory, integration, system, end-to-end, UI and cross-browser testing

Automation: Python, Pytest, Playwright, Selenium, Robot Framework, UI and regression automation, test maintenance, failure analysis and debugging

API & Database: Postman, REST API testing, HTTP status codes, JSON response validation, positive/negative testing, **SQL queries and backend data verification**

Defect & Delivery: Jira, defect lifecycle, severity/priority, reproduction steps, expected vs. actual results, retesting, Git, Jenkins, CI/CD, Agile/Scrum, SDLC/STLC

Monitoring: Grafana, SigNoz

PROFESSIONAL EXPERIENCE

Associate QA Engineer | Krista Software, Pune | March 2024 – September 2026

- Reviewed **requirements, user stories, and acceptance criteria** to identify test conditions, risks, and coverage.
- Designed and executed test scenarios for web-based conversational AI and chatbot features across **functional, regression, smoke, sanity, exploratory, integration, and end-to-end testing**.
- Validated **conversation flows, variable handling, input/output mappings, validation messages, and failure scenarios**.
- Used **Playwright, Selenium, Pytest, and Robot Framework** to support UI automation, regression checks, and test maintenance.
- Tested **REST APIs in Postman**, validated HTTP status codes and JSON fields, and used **SQL to verify backend data**.
- Logged defects with clear **reproduction steps, expected/actual results, screenshots, and logs**; partnered with developers to investigate, retest, and confirm fixes.
- Used **Grafana and SigNoz** to investigate application behavior and logs while collaborating with cross-functional Agile/Scrum teams.

QA Intern | Krista Software, Pune | September 2023 – March 2024

- Supported **requirement reviews, test preparation and execution, result documentation, defect reporting, and retesting**.
- Performed functional and regression checks while building foundational experience in **API validation, SQL, SDLC/STLC, and Agile testing**.

ACHIEVEMENT

Received the **Shining Star Award** at Krista Software for contribution and performance.

EDUCATION

Master of Computer Applications (MCA)

Sinhgad Institute of Management and Computer Application, Pune | 86.04% | 2022

Bachelor of Computer Applications (BCA)

Mudhoji College, Phaltan | 77% | 2020
